# YST ACTIVE IN MIND

Hydration

I can drink more water by...

Ineed

water each day.

Diet

I could improve my diet by...

I need hours of sleep.
I could improve my sleep by...

What exercise could I do?

I need 60 minutes of exercise a day

I could add exercise to my day by...

# What am I worrying about?

Is there anything I can do about it?

No? Let it go.

Yes?
Do it now or make a plan about how and when you will do it.

### **Stressors**

What are my stressors?
What stresses me out...

What happens to your mind and body when you feel stressed? Does your heart beat faster? Do your thoughts become confused? Write down all the things you notice.

What can you do to influence your body's response to stress?

### **Power poses**

How we are sitting or standing tells our brain how we are feeling. Powerful postures can affect our mood and confidence.
Think about someone who is confident or brave.
What is their posture like?

Try this posture:

- Stand/sit tall with your shoulders back
- 2. Hold your head up
- 3. Smile

## Positive thoughts

Your brain changes based on what you think. We can help our brain to change positively by using positive statements.

Complete the "I am..." in the box with the word you want to become. For example: "I am confident" or "I am calm"

I am...

### Mindfulness

Mindfulness helps our brain to be calm and to learn how to focus. Try this mindfulness exercise:

Trace your fingers around your opposite hand.

Breathe in, slide up

Breathe out, slide down

#### Grateful

When we focus on what we are grateful for our brain notices more of the things which help us to feel happy.

Everyday write down one thing you are grateful for. What are you grateful for today?

I am grateful for...

# Environment

Your environment influences who you become, what you believe and do.

Who can support you?

How does technology affect your attention, mood, sleep and memory?

I will change my technology use by...

When we are organised we feel calmer. How could you be more organised?

What could you change at home

# Tips for learning new skills

- Avoid distractions.
- 2 Make your environment comfortable.
- Get some water to drink.
- 4 Prepare all your equipment and materials.
- Use bright coloured paper and pens.
- Use pictures and diagrams.
- Practice in chunks of time, taking regular breaks.
- Give yourself enough time.

## Visualisation

Athletes practice their skills in their mind by imagining themselves winning. This helps their brain learn how to be successful. Create a picture in your mind of something you want to achieve. Draw the picture in the box of what you will visualise.

### New habits and actions
