

Diversity Action Plan

September 2021-2022

About us

The Youth Sport Trust is an independent UK charity devoted to changing young people's lives through sport. We are passionate about helping all young people achieve their full potential in

life by developing high quality physical education and sport opportunities.

Established in 1994 by Sir John Beckwith and Duncan Goodhew, we have a proven track record of making an impact in PE and school sport.

Through our work with thousands of schools, we have independent knowledge and understanding of how PE and sport can make a difference to young people's lives and have a significant impact on academic achievement, school ethos and whole school standards.

Our mission

Our mission is to create a brighter future for young people through the power of sport. We believe every child has a right to access high quality physical education (PE), school sport and physical activity.

Our vision

We will strive to provide every young person with the opportunity to transform their lives through high quality PE and sport which has a positive impact on their wellbeing, leadership and achievement.

Our values

The way we work and our culture are underpinned by a core set of values: trust; responsibility; integrity; and partnership working. We seek to find flexible solutions that are adaptable to the evolving sport and education landscapes, as well as to the varied attitudes and behaviours of young people. We are proud of our achievements, and celebrate the impact we have made on generations of young people.

Message from our board

Equality and diversity at the core of our mission

Statement from EDI Champion Billy Downie

The mission and work of the Youth Sport Trust is built on valuing diversity and tackling inequality. Together we are working towards a future where every young person has the opportunity to enjoy the life-changing benefits which come from participating in high quality PE and sport, whatever their background, ethnicity, gender, sexuality or ability.

We are committed to building an environment that celebrates diversity and tackles all forms of discrimination. There are significant inequalities in young people's participation in sport which is all too closely linked to their backgrounds and personal characteristics. To break down these barriers and ensure sport is inspirational, accessible and meaningful for every child, our commitment to diversity must be represented at all levels, including the charity's governance and leadership.

This document builds on our Diversity Action Plan 2017-2020 and captures the work we have done to date to show leadership across the

sector and ensure our people have the strong diversity of skills, experience and knowledge required to drive the mission required. This includes succession planning and updates to our recruitment policy and procedures to ensure that the future make-up of the board and staffing of the charity are drawn from an even greater diversity of backgrounds.

This interim one-year plan comes ahead of a full new Diversity and Inclusion Action Plan which the charity's Equality, Diversity and Inclusion management group will publish by September 2022. This follows the review of the UK Code of Governance for Sport and the requirement for all Tier-3 funded organisations to develop a Diversity and Inclusion Action Plan aligned with their strategic ambitions.

We want the Youth Sport Trust to be acknowledged across the worlds of sport and education as a knowledgeable and influential partner in addressing inequalities and promoting diversity in sport. To achieve this, we will continue to make ever greater strides towards increasing diversity within the organisation and to champion equality and diversity across everything that we do.

Importance of understanding and capitalising on our Board Members EDI knowledge, skills and experiences:

9 out of 11 Board members feel they have skills and experience to support the advancement of EDI in an organisational setting

6 out of 11 Board Members have over 10 years' experience in advancing EDI as part of their day-to-day roles

2 out of 11 Board Members are considered Industry Experts* in respect to EDI

Key questions

How does this feed into our broader governance plan?

Diversity and Inclusion are underlying principles in our wider governance processes and procedures. The terms of reference for the main Board and the Nominations, Governance & Remuneration (NGR) Committee include ensuring due regard for the benefits of diversity and a commitment to ensuring diversity generally on the Board. We are continually reviewing our Board member recruitment processes to try and attract a more diverse pool of candidates.

Our Governance Action Plan includes overarching actions to review the refreshed Charity Governance Code and the Code for Sports Governance, to determine our performance against these and identify any actions required – development and publication of the Diversity Action Plan forms part of this.

Our Governance Action Plan also includes regularly undertaking a “skills, knowledge and characteristics” audit of our trustees. This enables us to understand the diversity profile of our Board, which then feeds into our succession plan and informs the recruitment of future Board members

Who are the key people responsible for the delivery of this plan?

Equality, Diversity and Inclusion is everyone's responsibility.

The Chair of YST will ensure the delivery of this DAP, supported by the Board, Chief Executive Officer and Director of Finance and Governance.

Specialist support will be provided by our Head of Inclusion, Assistant Director of HR and the YST Equality, Diversity and Inclusion (EDI) Management Group.

YST EDI Management Group has representation from all functional areas of the organisation. This group is accountable to the Senior Leadership Team and Board EDI Champion.

Members are responsible for:

- Development and implementation of the YST Diversity Action Plan and supporting the actions contained within
- Strengthening links with the YST Research & Insight team to ensure YST continues to advance our practice in relation to EDI data collection and analysis, to inform organisational priorities.
- Monitor and review organisational policies and procedures in respect to EDI
- Act as advocates to ensure EDI is embedded into YST culture, values and every aspect of our work

How does our Diversity Action Plan (DAP) cross-reference other parts of the code or other relevant equality or diversity monitoring standards/framework?

The actions contained in the DAP, are also embedded in our YST wider organisational EDI Action Plan.

Actions have been guided from the following Standards/Frameworks:

- Charity Governance Code
- Equality Standard for Sport
- ISO 9001: 2015 Quality Management Standard
- Best Company Index
- UK Workplace Equality Index, Stonewall
- LEAD, Activity Alliance
- Sporting Equals Charter
- Disability Confident
