Content outline
These activities focus on the technical aspects of the field event, Javelin. They aim to develop the basic knowledge of how to correctly perform the technique.

- Grip
- Stance
- Follow-through
- Footwork

This resource and supporting video have been created by:
Chesney Ward, King Edward VI School

This series of resources and videos have been designed to give young people educational content and knowledge linked to the National Curriculum for Physical Education

Learning intention
Physical:
- To demonstrate the correct technique for the Javelin

Personal:
- Reflection
- Personal challenge
- Review personal performance

Learning questions:
- Where do you need to look when performing the throw?
- Where is the power for the throw generated?
- At what angle should you release the javelin?
- What technical points can you identify for the Javelin technique?
- How could you improve your technique?
- How can you increase the difficulty of these tasks?

Space
- If space is available, increase the distance from your target to make the task more difficult
- Decrease the distance from your target to make the task easier
- If the task is completed indoors, please make sure that the item you are throwing is soft and that you move anything which could be damaged or cause harm

Equipment
- Use household items to act as a javelin (e.g. Inner tube from kitchen roll, or a tennis ball)
- Use household items to act as markers (e.g. Towels or spare footwear)
- Increase / decrease the difficulty of the task by changing the size of the targets
- Use pieces of paper to act as markers when practicing the footwork of the throw

Task
- The activity can be repeated multiple times to attempt to improve starting performance
- Add targets to a wall (using paper) to aim for
- Can you adapt these activities to create a competition?

People
- If you have another person in your house, you may be able to coach someone else the correct Javelin technique
- If other people are available, the task could be performed within a competition
