Leadership — creating different scoring systems

Content outline
This activity aims to develop planning and leadership skills to enable a young person to deliver a basic game-based activity, which includes adapting the way the game is scored

- Communication
- Planning
- Problem solving
- Creativity
- Sportsmanship

Space
- Increase the playing area you are using (to make it harder)
- Decrease the playing area you are using (to make the task easier)
- If completing indoors, make sure the area is clear of trip hazards and any objects which could cause harm

Equipment
- Use different household items (Eg. cushion, small soft toy, items of clothing) to use during the activities
- Use larger equipment to make the task easier (eg. Larger targets, or use a larger ball)
- Could additional zones be added which could be used within your activity?

Task
- Add time limits to put participants under pressure
- Use very concise / simple instructions for any younger participants
- Use different scoring systems for different people playing based on their ability (Eg. Easier scoring system for young players)
- Have a variety of ways to make your activity easier / more difficult so you can adapt accordingly

People
- If you have other people in your house, ask them to be your participants to lead to
- Describe your activity a friend online – could they understand your activity?
- How can you adapt this activity for more people to take part?

Learning intention

Physical:
- To plan and deliver a short game-based activity, which includes different ways to score

Personal:
- Communication
- Problem solving
- Sportsmanship

Learning questions:
- Describe how to score during your activity
- How can you adapt your activity if one person is winning too easily?
- How could you adapt your idea for being indoors?
- How could you progress your activity further to make it more challenging?
- How could you improve the activity you delivered?

This resource and supporting video have been created by:
James Panayi, Sprowston Community Academy

This series of resources and videos have been designed to give young people educational content and knowledge linked to the National Curriculum for Physical Education
