#ThisIsPE

**Leadership — Adapting a game using people**

**SECONDARY KEY STAGE 4 PE /// STUDENT LEADERSHIP**

## Content outline

This activity aims to develop leadership skills to plan and deliver a competitive game, whilst adapting the task using people

- Communication
- Problem solving
- Inclusion
- Target setting

### S

**Space**

- Increase the size of the space you are working in (to make the activity easier)
- Decrease the size of the space you are working in (to make the task more difficult)
- Use items or ‘landmarks’ to identify your playing area
- Increase the distance from targets to make any tasks more difficult

### E

**Equipment**

- Use different household items (Eg. cushion, small soft toy, items of clothing) to use within your activity
- Change the size of the items – smaller items will increase difficulty, heavier items may be used for older participants – try using a ball of socks as a ball
- What other household items can you creatively use within your activity?

### T

**Task**

- Add or remove people to change the activity
  - 1vs1, 2vs1, 2vs2
- Add other people to perform other roles associated with the activity; Official or scorer
- Add / remove rules to change to activity (eg. Could you add another defender?)

### P

**People**

- If you have another person in your house, ask them to participate with you
- Challenge a friend to complete your activity in their household
- How can you adapt this activity for more people to take part?

## Learning intention

**Physical:**

- To develop knowledge of how adapting a task using people can affect an activity / game

**Personal:**

- Inclusion and Equality
- Problem solving
- Creativity

## Learning questions:

- How could you adapt your idea for being indoors?
- How can you adapt this activity to make the activity easier or more difficult?
- If outside and the ground is wet, what H&S measures might you include?
- How did you make sure that everyone was involved in the activity?
- Create your own version of this activity and lead it to everyone in your household - then get their feedback; how would you improve the activity you delivered?
