Bikeability can contribute to pupils’ attainment and achievement due to:
- pupils with better health and wellbeing are less likely to be absent and therefore more likely to achieve academically
- effective social and emotional competencies developed through Bikeability are associated with greater health and wellbeing
- the culture, ethos and environment of a school influencing the health and wellbeing of pupils and their readiness to learn. Bikeability training contributes to this ethos
- the profile of PE and sport being raised across the school as a tool for whole-school improvement

Bikeability strengthens opportunities for pupils to:
- learn how physical activity and cycling positively affects physical health and wellbeing
- recognise that choices can have positive, neutral and negative effects
- recognise, predict, assess and manage risks responsibly while cycling in their local area and using these opportunities to build resilience
- increase independence when cycling and be aware of their responsibility to keep themselves and others safe
- work with others to assess, review, enjoy, celebrate and set goals for progress in cycling ability, setting high aspirations and having a desire to improve
- develop strategies for keeping physically and emotionally safe, through road safety and cycle safety
- achieve at least 60 minutes of physical activity a day, of which 30 minutes should be in school

Bikeability can help pupils to:
- understand how an active lifestyle can support emotional health
- enjoy recreational cycling in the wider community with friends and family
- increase confidence, decision-making and self-esteem through challenge and achievement of goals related to Bikeability
- develop perseverance and resilience when learning new cycling skills
- understand that pressure to behave in an unacceptable, unhealthy or risky way can come from a variety of sources
- experience a broader range of sports and activities being offered

WHAT CAN BIKEABILITY DO FOR YOUR PRIMARY SCHOOL?

Bikeability creates opportunities for pupils to:
- develop speaking and listening skills, including positional and directional language
- read a variety of non-fiction texts including handbooks, signs and instructions
- use knowledge and understanding developed in science: cogs, wheels, forces, power, air and speed
- use their experiences of Bikeability as a source for topics in literacy (instructional, creative, reports, poetry)
- use learning achieved in numeracy through shapes, direction, distance and speed
- develop geographical knowledge and confidence when following maps, routes and pathways
- support physical education outcomes such as balance, stability and coordination
- benefit from the raised profile of PE and sport across the school as a tool for whole-school improvement

Bikeability provides pupils with a pathway to:
- achieve the Chief Medical Officer recommended 60 minutes of physical activity a day
- experience a broader range of sports and activities being offered
- increase participation in competitive sport
- enter cycling competitions (intra-school, inter-school and club) and participate in cycling leadership opportunities
- experience a range of cycling opportunities (i.e. BMX, road racing, time trials, cyclo-cross, mountain bike racing, track cycling and cycle speedway. Non-racing cycling sports include artistic cycling, cycle polo, freestyle BMX and mountain bike trials)

Bikeability enables pupils to:
- recognise the difference between right and wrong, develop acceptance of and engagement with the fundamental British value of democracy
- understand the consequences of their behaviour and actions, making appropriate decisions while cycling
- use a range of social skills both in and out of school as they participate in and advocate the benefits of cycling safely
- willingly participate in sporting or physical activity opportunities, having the confidence to enjoy cycling out of school hours

Bikeability can help pupils:
- understand how an active lifestyle can support emotional health
- enjoy recreational cycling in the wider community with friends and family
- increase confidence, decision-making and self-esteem through challenge and achievement of goals related to Bikeability
- develop perseverance and resilience when learning new cycling skills
- understand that pressure to behave in an unacceptable, unhealthy or risky way can come from a variety of sources
- experience a broader range of sports and activities being offered
WHAT CAN BIKEABILITY DO FOR YOUR PRIMARY SCHOOL?

Bikeability is much more than a cycle training programme. It delivers wide-ranging and long-lasting benefits to young people, families and communities.

Bikeability is organised and delivered at your school or locally by registered Bikeability providers.

WHAT CAN BIKEABILITY DO FOR YOUR PRIMARY SCHOOL?

Bikeability can support the culture, ethos and environment of your school, contributing to active travel and the independence and health of your pupils.

CASE STUDIES

Redcar & Eston School Sport Partnership
Bikeability supporting physical activity outcomes

What do they do?
Redcar & Eston School Sports Partnership has an active Bikeability Scheme. It is included in every annual Primary Schools’ Action Plan under the Healthy and Active Lifestyles Outcomes, and meets the unique needs of each school.

Examples of impact
Ings Farm Primary School, Redcar, reported:
• A 20% increase in the number of Year 5 pupils cycling to school.
• Improved confidence and skills to ride safely on roads.
• Improved physical activity levels following Bikeability training.

Following completion of Level 2 Bikeability training, Year 6 pupils from Wheatlands Primary School, Redcar, reported:
• Improved knowledge and understanding of riding a bike on a road.
• 100% reported being more active on their bikes outside of school.
• More than 33% of the pupils now regularly ride their bikes to school.

St Breock Primary School
Bikeability supporting Spiritual, Moral, Social and Cultural Development

What did they do?
Having completed Bikeability Level 1 and Level 2 training, girls in Years 5 and 6 were encouraged to motivate their families to join in weekend cycling sessions. The Head Teacher initiated the weekend family rides, supporting the girls to confidently lead their families.

Examples of impact
St Breock Primary School reported:
• Confidence and self-belief of the girls improved.
• Girls regularly attended the Saturday family rides.
• Girls took a leadership role.
• A family cycling holiday was organised, and pupils planned routes, visited various historic sites, and followed Belgian road laws and safety regulations.

"I enjoyed it when my family could join the group at weekends, as it made us do cycling together as a family. We cycled about 253 km in the week and planned the routes every morning. It made me have much more confidence in cycling and love it even more. We are going to Belgium cycling again this year!"

PE AND SCHOOL SPORT PREMIUM

How does the funding work?
Schools in receipt of the PE and School Sport Premium must use the funding to make additional and sustainable improvements to the quality of PE and sport offered.

There are five key indicators that schools should expect to see improvement across:
• The engagement of all pupils in regular physical activity – the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school.
• The profile of PE and sport is raised across the school as a tool for whole-school improvement.
• Increased confidence, knowledge and skills of all staff in teaching PE and sport.
• Broader experience of a range of sports and activities offered to all pupils.
• Increased participation in competitive sport.

How does Bikeability support this?
Schools engaged in Bikeability can contribute to a number of the above indicators, as well as developing the social, creative, health, physical and thinking abilities of pupils.

MORE INFORMATION

Take advantage of government funding and contact your Local Authority or School Games Organiser Host School for more information about their Bikeability training delivery.
